

## **Foster Children**

Children in foster care have the right to placement in the least restrictive educational programs, access to academic resources and services, extracurricular and enrichment activities available to all pupils, full and partial credits for coursework taken, and an opportunity to meet state academic achievement standards. In an effort to ensure stable school placements in the best interest of the child, **foster children may remain in their school of origin for the duration of the school year when their placement changes. If you have any questions please contact the District foster care liaison at the District Office at 562-907-5935.**
